

LTA (Saudi Arabia)

Cable Laid Slings & Cable Laid Grommets

PROJECT TITLE

LTA Project.

DATE

December 2009.

BACKGROUND

This project required KTL Offshore to manufacture and supply a total of 44 Cable Laid Slings and 14 Cable Laid Grommets for the first rigging requirement for the Long Term Agreement for the first in-Kingdom fabrication yard and offshore support base which will be used to construct offshore well platforms and pipelines. The slings and grommets were manufactured to extremely tight length tolerances which were achieved through KTL Offshore's unique Engineered Length Control (ELC) method.
