

## PROJECT TITLE

The Macedon project

## DATE

June 2012

## BACKGROUND

The Macedon gas field is located approximately 100km west of Onslow in the Pilbara region of Western Australia.

The project includes:

- 4 subsea wells
- An onshore gas plant
- Sales gas pipeline
- Onshore infrastructure

The domestic gas plant will have a design capacity of 200 million standard cubic feet per day. A sales gas pipeline will be connected to the Dampier to Bunbury natural gas pipeline for sale to the domestic gas market in Western Australia.
