

PROJECT TITLE

Daman Development Project (India)

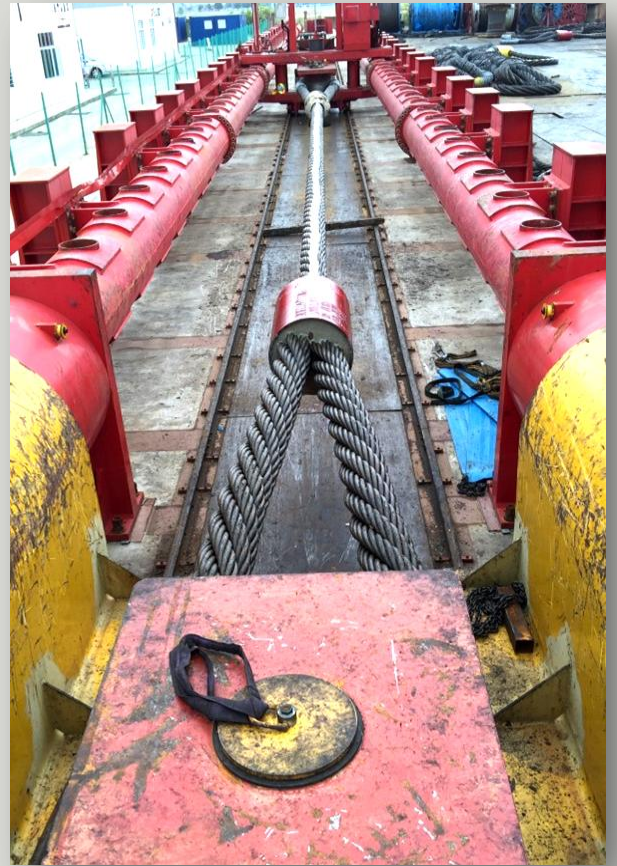

DATE

April 2016

BACKGROUND

KTL Offshore was awarded the project to supply 12 heavy lift slings for ONGC's *Daman Development Project* in the Arabian Sea, offshore India. This EPIC project is expected to be completed in 2017. It will be executed in 2 phases where a total of 8 wellhead platforms will be installed and a network of 101.5km pipelines will be laid. Gas and condensate from the Daman development will be transported to Hazira through Tapti Process facilities of the Tapti-JV (KTL Offshore also previously supplied the heavy lift slings for the Tapti project).

KTL Offshore supplied *KimLock™* cable laid slings with resin terminated spliced eyes, which provided the heavy lift contractor with a lighter rigging solution as well as a faster, easier load out and installation due to the compact terminations.

Daman Development Project (India) *KimLock™* Cable Laid Slings

ITEMS

- 2 x KimLock Cable Laid Sling 164mm x 29.4mtrs CSBL 1310MT
- 2 x KimLock Cable Laid Sling 191mm x 28.9mtrs CSBL 1687MT
- 2 x KimLock Cable Laid Sling 262mm x 26.7mtrs CSBL 3469MT
- 2 x KimLock Cable Laid Sling 283mm x 26.2mtrs CSBL 3134MT
- 1 x KimLock Cable Laid Sling 242mm x 35.9mtrs CSBL 2624MT
- 1 x KimLock Cable Laid Sling 242mm x 36.6mtrs CSBL 2624MT
- 1 x KimLock Cable Laid Sling 225mm x 34.5mtrs CSBL 2255MT
- 1 x KimLock Cable Laid Sling 283mm x 33.8mtrs CSBL 4325MT

All manufactured and tested by **KTL Offshore** in Malaysia.
Witnessed and certified by **ABS**.
