

PROJECT TITLE

Forward Mounted Base (FMB) Project (Qatar)

DATE

March 2016

BACKGROUND

KTL Offshore was awarded the heavy lift sling contract for Qatar Petroleum's FMB (Forward Mounted Base) EPIC project which comprised a living quarter platform and utility platform with a connecting bridge. The project location was in Qatar. The scope of the contract was to supply KimFlex™ braided slings, KimLock™ resin terminated cable laid slings, KimSwage™ Flemish eyes slings as well as cable laid grommets.

Forward Mounted Base (FMB) Project (Qatar) KimLock Slings, KimFlex Braided Slings, KimSwage Flemish Eye Slings and Cable Laid Grommets
