

Thien Ung Project: Cable Laid Grommets

DATE

July 2016

BACKGROUND

KTL Offshore was awarded the contract to manufacture and supply the steel cable laid grommets and KimSwage steel slings for the lifting of the Thien Ung top deck modules. The top decks are part of a 3,500t platform which includes a four legged jacket.

The Thien Ung Gas Field is located at block 04-3 in the Nam Con Son basin offshore Vietnam. The project aims at exploiting the natural gas deposits in this field.

Thien Ung Project, Vietnam Cable Laid Grommets and KimSwage Flemish Eye Slings
