

Trat Field Development

KimLock™ and KimFlex™ Steel Wire Rope Slings and Cable Laid Grommets

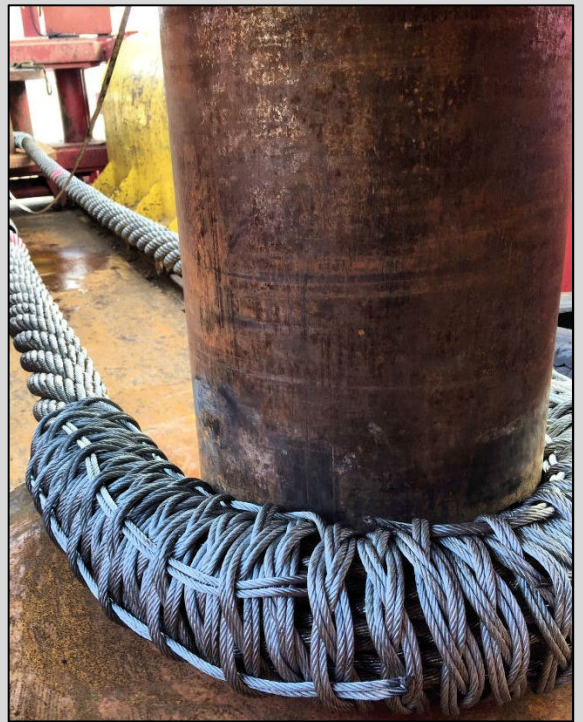

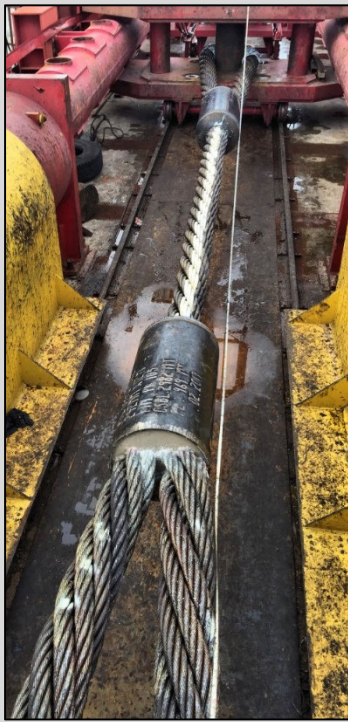

DATE

January 2017

BACKGROUND

KTL Offshore was awarded the scope of supply for the heavy lift slings and grommets to be used for the installation of multiple new wellhead platforms and subsea pipelines for Chevron in the Trat Field in the Gulf of Thailand.

This project showcases spectacularly the wide range of heavy lift options KTL Offshore can offer: cable laid grommets, resin terminated cable laid slings as well as braided slings. Each option caters to a specific requirement from the customer.

Trat Field, Thailand
